### Opis produktu

**Wersja językowa angielska. Miękka okładka. 232 strony.**

The astounding success of How To Study Chess on Your Own made clear that thousands of chess players want to improve their game — and like to work on their training at least partially by themselves.

The bestselling book by GM Kuljasevic offered a structured approach and training plans. Due to popular demand, Kuljasevic has created a series of accompanying Workbooks with exercises and tools a chess student can use to start his training immediately.

Most workbooks offer puzzles and puzzles only. But Kuljasevic has used his coaching experience to create a broader and more exciting training schedule. Tasks like these will challenge you:

- Solve deep visualization puzzles
- Find a 'hidden tactic' – and a mini-plan
- Playing a sharp tactical position – against a friend or an engine, carefully set an appropriate level
- Simulation – study and replay a strategic model game
- Analyze – try to understand a thematic endgame position

Volume 2 is optimized for chess players with an Elo rating between 1500 and 1800 but is helpful for anyone between 1200 and 2000. Volume 1 is for 1800-2100 Elo, and Volume 3 will serve the needs of more advanced club players.

---

**Davorin Kuljasevic** is an International Grandmaster born in Croatia. He graduated from Texas Tech University and is an experienced coach. His bestselling book *Beyond Material: Ignore the Face Value of Your Pieces* was a finalist for the Boleslavsky-Averbakh Award, the best book prize of FIDE, the International Chess Federation.
