Opis produktu

Akiva Rubinstein occupies a unique position in chess history. One of the greatest artists ever to sit down at a chessboard, Rubinstein was also the strongest player never to get an opportunity to play for the title of World Champion.

This greatly enlarged second edition chronicles the second half (1921-1961) of the Polish grandmaster's life. Dozens of archival photographs, photographs and approximately 40% more material finish off this splendid work, completing the journey begun in volume 1.

International Master **John Donaldson** is one of America's most popular chess authors. His most recent release is the second edition of "A Legend on the Road", about Bobby Fischer's 1964 transatlantic exhibition tour.

International Master and three-time champion of Bulgaria **Nikolay Minev** is well-known for his books and articles, although his most recent work, "A Practical Guide to Rook Endgames", has been well received by chessplayers worldwide.

Paul Kane, The Compulsive Reader:

"A wonderful tribute to a sophisticated, subtle chess player. A splendid volume of record, deserving full praise and recommendation."

Dr. W. Schweitzer, Rochade Europa:

"A great achievement."

Johannes Fischer, KARL Magazine:

"Also because of the many pictures and the nicely readable lay-out this is a very good book."

British Chess Magazine:

"This is an enlarged second edition (...) and includes a number of newly-discovered games (...) Anyone who failed to get the first edition now have a quite undeserved opportunity to remedy their omission with profit."

Thomas Beherens, Chess-International:

"If you are intersted in chess history, then this book offers quite a lot of reading material on an almost academic level (...) Moreover, it also is a big training book (...) recommended to learn to play real strategic chess."
